

BEACON™

The Beacon is a **battery-powered, portable line array sound system** like no other in the market! The line array tower **unfolds in less than a minute** and contains eight 4 inch speakers with an additional three 8 inch subwoofers in the base. It stands about 6 feet tall and has a **clean, full range of sound** that spreads evenly over any large crowd without the need for a stand.

The Beacon offers **user friendly controls**, an optional built-in MP3 player and up to two wireless receivers. The compact enclosure has a storage bag for microphones and a collapsible handle with rolling wheels. Use the Beacon at sporting events, graduations, outdoor camps, auditoriums, and more!

LIBERTY PLATINUM

Anchor Audio introduced the world to *portable sound systems*, and Liberty Platinum became the single word that defines the industry. The *lightweight* enclosure case is easy to carry and the rugged material protects the components that make the Liberty Platinum the new industry standard.

The Liberty Platinum has an optional *built-in MP3 player* and a *USB port* to charge your USB device. Two wireless microphone options operate a UHF frequency range and *16 user-selectable channels* offer *great reception in your listening area*. The Liberty is a big hit at any school function, outdoor PGA event, for a political rally or at military base ceremony.

EXPLORER PRO

Where will you **Explore?** Traveling the world with a **portable sound system** has **never been easier**. Asia, Africa, Antarctica... the Explorer Pro has seen and done it all. Just stick it in a case, throw it on an airplane and off you go. Even in areas where AC power is not an option, the Explorer Pro's **built-in battery** continues to perform. One **wireless microphone**, two wireless microphones - it's up to you. So, where will you explore? Use the Explorer for schools, corporate events, and places of worship.
